## Let the Light Shine

*memorials in glass for military service  
from the Boer War to Afghanistan*

### LINK TO DOCUMENTARY FILM AND SCREENING GUIDELINES

Glaas Inc. is delighted to provide free of charge a link to our half hour documentary film 'Let the Light Shine'. The film is provided for screening to your organisation, members and community. We trust you will enjoy this unique perspective on the service and sacrifice of Australia's service personnel through the medium of glass and welcome your feedback. **Link:**

[https://www.dropbox.com/scl/fi/eb9p7vu8kcs1e2fyr99c0/Let-the-Light-Shine\\_LAUNCH\\_2-May-2024.mp4?rlkey=jz6twz644d942div7x4uu45yx&st=zdqsfdz3&dl=0](https://www.dropbox.com/scl/fi/eb9p7vu8kcs1e2fyr99c0/Let-the-Light-Shine_LAUNCH_2-May-2024.mp4?rlkey=jz6twz644d942div7x4uu45yx&st=zdqsfdz3&dl=0)

The film is a single MP4 video file, 2.7GB in size and runs for 31mins 24 sec.

The film should first be downloaded from the Dropbox file link onto a computer (either PC or Mac) and played from that computer.

The file will play on any TV, phone or digital projector.

High Definition or Smart TVs will produce the best sound and picture.

It is important that users ensure a good working audio system is in place.

Playing via an HDMI cable will normally include audio in that single cable. Otherwise an audio cable (red and white RCA plugs) running to an audio amplifier would be required. Output from either a projector or amplifier will need to be via two speakers.

Previewing – It is essential to preview the film prior to screening to ensure your equipment is working properly.

Should you have any difficulties please contact:
